OnTime

THE PERFECT SOLUTION FOR ACCESSING STUDENT DATA OFFLINE

How schools take and manage attendance has not changed in the past 25 years. Phoenix Learning Systems has dramatically changed how schools deal with attendance. OnTime© software tackles the two hardest processes of taking and managing attendance.
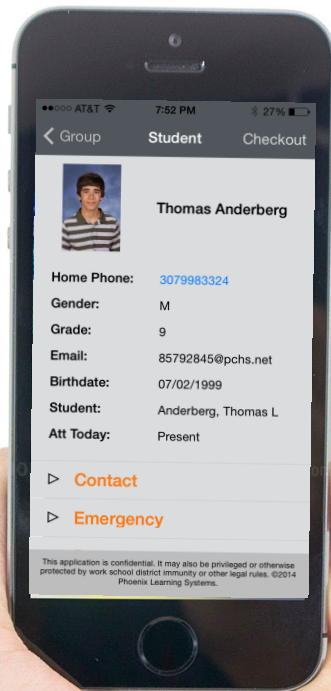

System Requirements

OnTime Server
is available on:
Windows (12 or Greater)
Macintosh (OS 12 or Greater)
Texting works on Android or Apple iOS

Do Attendance Better

- Seamless integration with PowerSchool®
- Puts the responsibility on the student to manage their own attendance.
- Allows parents to excuse unexcused absences from their mobile device.
- Presumes students are absent instead of present, requiring them to scan to park present.
- Use ID cards, electronic fob or phones to scan attendance
